Chios is a form of energy healing that treats a person's entire energy field through their aura and the chakra system. Chios is a complimentary healing modality, meaning it works in perfect harmony with conventional medical care. Sessions are relaxing and gentle. The patient lies fully clothed on the Chios table while I channel energy into his/her body through light touch, or by holding my hands just above his/her body.

**Requirements:** A vacant room, or a private space, (at least 12'x12') in which to set up my Chios table.
